

PRATEEK SINGH

BI & Analytics Leader · Enterprise Reporting, Governance & Self-Service Enablement

Lansing, MI (Open to Relocation) | +1 (517) 512-4813 | Email: prateek.singh22@outlook.com
LinkedIn: <https://www.linkedin.com/in/prateeksingh22> | Portfolio: <https://prateeks-viz.github.io>

PROFESSIONAL SUMMARY

BI and analytics leader with 9+ years owning enterprise reporting environments end-to-end at Fortune 500 scale across finance, HR, operations, distribution, sales, and learning functions. Builds the platforms, governance frameworks, and operating rhythms that make executive reporting trustworthy and rational, rationalizing fragmented dashboard estates, modernizing Azure data pipelines, and standing up dev/QA/production governance without slowing teams down. Pairs hands-on depth in Power BI, Tableau, SQL, and Azure Data Factory/Databricks with executive stakeholder partnership, training, and self-service enablement. MBA candidate (Dean's Fellow) at Indiana University's Kelley School of Business with a focus on Strategy and Leadership.

CORE SKILLS

BI & Data Visualization: Power BI; Tableau; Microsoft Fabric; executive dashboards; data storytelling; dashboard rationalization; self-service analytics

Data Platforms & Engineering: Azure Data Factory; Azure Databricks; SQL; ETL pipelines; semantic/BI models; star & snowflake schemas; Oracle; IBM Db2; Redshift; Snowflake

Reporting Governance & Operations: Data governance; KPI standardization; metric definitions; access controls; versioning & change management; QA/UAT; intake; data quality validation

Analytics Leadership & Enablement: Community of Practice facilitation; curriculum design; coaching & mentoring; cohort leadership; training delivery at scale

Stakeholder & Executive Communication: VP/C-suite advisory; requirements translation; technical documentation; executive demos; cross-functional partnership

Tools & Technologies: Tableau Server administration; SSIS; SSRS; SSMS; Informatica; IBM Cognos SharePoint; AI assistants (Atlassian Rovo, GitHub Copilot, Microsoft Fabric AI, Secure Island)

SELECTED PROJECTS

Tableau Platform Governance at a Fortune 500 Insurer | Tableau Server Admin · Governance · ADF

- Owned governance for two enterprise Tableau sites across dev/QA/production, designing stewardship-based permissions and versioning for 100+ reporting assets.
- Paired platform governance with Azure Data Factory modernization to cut reporting failures, refresh issues, and manual intervention by ~80%.
- Established a repeatable operating model that made the governed path the easiest path for builders across the estate.

C-Suite Product Sales Visibility in Eight Weeks | Power BI · Executive Reporting

- Delivered C-suite Power BI reporting on product sales across channels, categories, and products in roughly eight weeks.
- Engineered a pragmatic architecture using controlled mainframe extracts to deliver executive visibility while the enterprise data layer was not yet ready.
- Gave senior leadership decision-ready sales insight without waiting on long-lead data infrastructure.

Executive Budget & Expense Reporting for Operations Leadership | Power BI · Stakeholder Advisory

- Served as BI SME, defining the reporting model, variance logic, and visual approach for operations budget and expense reporting.
- Coached the build and supported executive demos, translating leadership requirements into reliable production reporting.
- Strengthened financial visibility and reporting trust for operations leadership.

Reporting Discoverability at Red Hat | Tableau · Server Metadata · Redshift

- Designed a Tableau landing dashboard powered by Tableau Server metadata and Redshift usage logs.
- Gave sales and finance leadership a single searchable entry point across a large reporting estate.

- Substantially reduced dependency on support teams to locate dashboards across the enterprise.

BI Community of Practice from Zero | Operating Model · Coaching · Power BI/Fabric

- Co-built an enterprise BI Community of Practice with office hours, monthly enablement sessions, and coaching for 7–8 BI analysts and engineers.
- Turned platform standards into repeatable builder practice across Power BI, Tableau, and Microsoft Fabric.
- Established the operating rhythm that drives adoption of governed reporting practices.

PROFESSIONAL EXPERIENCE

Senior Data Visualization & Analytics Engineer | Jackson National Life

Lansing, MI · Sep 2022 – Present

- Serve as BI subject-matter authority across Power BI and Tableau for an enterprise reporting environment serving 8 business functions and external stakeholder groups.
- Own Tableau platform governance as site administrator for two enterprise sites, designing dev/QA/production environments, stewardship-based permissions, and data stewardship across data sources, flows, and workbooks.
- Built 5 Azure Data Factory pipelines and introduced versioning and change-management practices, contributing to a ~80% reduction in reporting failures, refresh issues, and manual intervention.
- Deliver executive-facing Power BI dashboards covering budget, expenditure, business inflow/outflow, and audit-oriented reporting in partnership with VPs and senior leaders.
- Built 5+ dashboards and supported 100+ reporting assets, improving governance by standardizing platform structure, permissions, and versioning while rationalizing overlapping dashboards.
- Co-lead the BI Community of Practice and coach 7–8 BI analysts and engineers; represent Jackson as a Talent Ambassador and mentor employees pursuing BI and analytics growth.
- Leverage AI tooling across the workflow, Atlassian Rovo with Jira and Confluence, GitHub Copilot, Microsoft Fabric AI, and Secure Island browser AI, to accelerate query and code development and to speed reporting documentation, drafting, and enterprise knowledge search.

Business Analyst II | Red Hat, Inc.

Pune, India · Aug 2021 – Apr 2022

- Built Tableau dashboards for North American sales and finance leadership on a Redshift-backed enterprise data warehouse, enabling evaluation of product performance, customer patterns, and expenditure trends.
- Designed a Tableau landing dashboard from Server metadata and Redshift usage logs, creating a searchable one-stop experience that reduced reliance on support teams to locate reports.
- Standardized KPI definitions and reporting logic across stakeholder groups, improving consistency in how business performance was measured.
- Partnered with data science and ML teams to translate model outputs into decision-ready Tableau views.

Technology Analyst | Infosys Limited

Pune, India · Dec 2016 – Aug 2021

- Designed and delivered 800+ live and virtual sessions to 10,000+ professionals globally across Power BI, Tableau, IBM Cognos, SSIS, SSRS, Informatica, Snowflake, Qlik, Pentaho, SQL, and MongoDB.
- Owned global BI/data learning cohorts of 50 to 300+ professionals—leading classroom operations, exams, evaluations, capstones, mentoring, and curriculum design.
- Built reporting and data engineering solutions for Infosys trainee and workforce data, consolidating sources into a single view for leadership visibility into workforce readiness and bench status.
- Created 4 core learning modules used in Infosys Lex and extended into Springboard offerings; earned INSTA Awards for training innovation and analytics enablement.

EDUCATION

MBA, Strategy & Leadership — Indiana University, Kelley School of Business · Expected Spring 2027

- Dean's Fellow; Momentum Scholar. Vice President, Kelley Direct Marketing & Growth Association.

M.Tech., Computer Science & Engineering — GLA University · 2016

- Graduate assistantship in labs and grading; 2 peer-reviewed conference publications.

B.Tech., Computer Science & Engineering — Uttar Pradesh Technical University (UPTU) · 2013

CERTIFICATIONS

- Microsoft Certified: Power BI Data Analyst Associate (PL-300)
- Microsoft Certified: Azure Fundamentals (AZ-900), Azure Data Fundamentals (DP-900), Security, Compliance & Identity Fundamentals (SC-900)
- Harvard ManageMentor — Presentation Skills

LEADERSHIP, ENABLEMENT & RECOGNITION

- Co-Chair, ASCENT BRG — grew membership 100% and led the first all-BRG summit in Lansing with 100+ attendees.
- Talent Ambassador (Michigan State University) and Philanthropy Committee member, Jackson National Life.
- Invited speaker: IIM Lucknow FinFaction Club (2023, Data Visualization with Tableau); guest sessions at Vishwakarma Institute of Information Technology and Shriram College of Engineering and Management (2019).
- Awards: Red Hat Multiplier Award; Red Hat Team Advocate Award; Infosys INSTA Awards (2018, 2020).
- 2 peer-reviewed conference publications in data visualization and business intelligence.
